INTER-OFFICE CORRESPONDENCE

REILLY TAR & CHEMICAL CORPORATION

TO: H. L. Finch  
FROM: W. A. Justin  
SUBJECT: Pollution

OFFICE St. Louis Park  
DATE October 14, 1970

Mr. Harry Fredrick, of Pollution Curbs, called me today to advise that he had received a call, from Mr. Tibor Kosa, of the State Pollution Control Agency. Mr. Kosa called to inquire, or possibly check the fact that we were retaining Pollution Curbs Inc. to aid us in our pollution problems. Mr. Kosa told Mr. Fredrick, he understood we had hired Pollution Curbs to run a survey of our problem, and would like to know what the scheduling of the program was and when they anticipated completion. Mr. Fredrick advised Mr. Kosa, that we had not as yet retained them, but we're in the process of studying their proposal, and that I had submitted the proposal to Indianapolis for approval. He also advised Mr. Kosa that as early as last week I had been in contact with him on a revision I wished put in the proposal Pollution Curbs had submitted to us. Apparently Mr. Kosa misunderstood us in our meeting of October 13, 1970, in your office. It was my understanding that we had explained to Mr. Kosa that we were studying a proposal by Pollution Curbs and not that we had already retained them for our study. Mr. Kosa while talking to Mr. Fredrick, stated that they had some specific ideas as to what we would have to do in order to curb our pollution, and Mr. Fredrick advised him that with the approval of our company he would be happy to sit down with him and discuss the situation, realities, and course of action we might need to take. Mr. Fredrick has agreed to supply me with a letter, setting the substance of the conversation he had with Mr. Kosa over the telephone, concerning this matter.

Very truly yours,

*W. A. Justin*  
W. A. Justin

*Mr. Kosa also told Mr. Fredrick that if we  
were engaged in a study program it would  
imply that state would pursue action against  
us.*
